## OPEN CALL FOR SAMA KUNSTFESTIVAL 2022

22. - 24. July 2022

Exhibition Indoor & Outdoor at Biosphärehof Tabakscheucher, Steyr

### Topic

The tension between globalization and deglobalization accompanies us at every turn in everyday life. This global network creates and solves crises, wars and problems. But postmodernism shows us that this growth-based system has reached its limits. Yet technology and the rapid acquisition of knowledge that depend on full collaboration and interdependence are enabling what seemed impossible yesterday. Around the clock we use products that a globalized world enables and requires. At the same time, we are repeatedly reminded of the downsides and victims of this construct geared towards overconsumption and growth.

The question of individual impact occupies the (artist)-generation more than ever. What can you do as an individual? What can art do? And which topics must/can I outsource to political decision-makers. Questions that the majority of people cannot ask themselves due to a lack of time, money and resources. Art can help with that. It can mediate, build bridges, be an early warning system. Art can be opposition and coalition. It can break bridges and hurt, but it can also connect and strengthen.

With this year's art festival, we want to show this range and thus create a space for thought that invites you to reflect on your own points of view, to exchange ideas, to discuss, but also to connect and network. Ideally, this creates an inspiring sense of community - strengthened, together and with the feeling of not being alone should ideally be driven home from the festival back to everyday life.

## Raumkonzepte

We want to try this in different ways with different room concepts. We write some of them below:

Consumption - Responsibility  
fear - power  
crisis - privilege  
capital - justice  
permanence- impermanence  
utopia - dystopia  
freedom - isolation  
borders - ways  
power - powerlessness  
home - invasion  
conformity - identity  
growth - decline  
heat - cold  
pop - anti-pop

## Info

We are looking for art positions of any kind: from painting to photography, sculpture, performance art or film work - we don't want to set any limits. The terrain (meadow, trees, paths) and the premises (barns) of the quite remote biosphere farm "Tabakscheucher" will be used. Thus, projects for indoor and outdoor are possible.

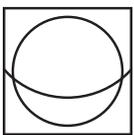

## Submission

We ask that you submit your project by **June 23, 2022** at the latest.

It should contain: A brief text of the concept with photos, videos or sketches and a brief information about you.

By email to: [kunst@samakollektiv.com](mailto:kunst@samakollektiv.com)

We are very much looking forward to your submissions!
